RS

The Life of Jesus - examining key events and facts from the time of Jesus.

FRENCH

Holidays
House and home

ICT

An Introduction to
Programming

Year 4

INTRODUCTION

This booklet contains information about all of the key academic subjects taught in Year 4 and will be updated termly. This booklet is designed to inform you about the topics your children will be studying this term.

MATHEMATICS

The children will be working towards using and applying mathematical knowledge in problem-solving questions.

- Properties of number
- Measures – capacity and weight
- Word problems
- Shape – 2D and 3D
- Fractions, decimals and percentages
- Time
- Symmetry

There are weekly multiplication tests and mental arithmetic tests. The multiplication test is read aloud by their teacher. The mental arithmetic test will be a combination of aural and written.

ENGLISH

Reading

In comprehension work, the children will study a range of fiction, non-fiction and poetry. In comprehension, the children will be expected to tackle retrieval, evaluative and inference questions.

The children will be expected to read independently as part of their homework each night. Each class will have a set text which they study for the term.

Writing

Playscripts
Story writing - developing plots
Non-chronological reports
Explanations
Persuasive writing
Advertisements

Grammar & Punctuation

Connectives
Punctuation
Paragraphing
Prefixes and suffixes
Apostrophes - possession
Alliteration

Spelling

The children will be given a new spelling rule each week, which they will learn to apply for a weekly dictation.

Handwriting

Cursive style – There is an expectation that the children will write in handwriting pen with a consistently joined and fluent script
